How to Swap Tokens

1. Select Tokens

Select the tokens you wish to swap.

Select the '**Select a token**' icon and browse the list to find your token. You can also search by token name or token contract address.

2. Enter amount you would like to send or receive

Enter the amount that you wish to swap. You can enter either your desired input amount or output amount.

3. Approve the Uniswap Auto Router to swap your token

Case 1:22-cv-02780-KPF Document 83-1 Filed 02/06/23 Page 4 of 4

If this is your wallet's **first time trading this token** with the Uniswap protocol, you need to **approve the token first**. Read about Approval Transactions here.

4. Review and Confirm your swap

Select the 'Swap' button to view a preview of your swap.
